

Business Continuity Plan for the Cypress Companies

Cypress has a comprehensive business continuity program in place, which we review and update on a regular basis. The plan provides for resumption of our business activities within a matter of hours to days, depending upon the severity of the event.

While a serious event such as a fire in our home offices or an earthquake effecting the San Francisco Bay Area could temporarily affect our ability to communicate with our investors and business partners, the actual equipment assets owned by the Cypress programs are located throughout the country and the world, and therefore would not be jeopardized by an event affecting our home offices.

In the event of a serious business disruption affecting our home offices, our primary telephone numbers would be re-routed to our offsite contingency office as soon as practicable. These numbers are as follows:

Investor Services	(866) 866-9330
Broker Services	(888) 800-0988
All Other Inquiries	(415) 281-3020

If necessary, additional information, including alternate mailing instructions, will be posted on our website as soon as practicable.

If you should have any questions regarding these plans please contact us at one of the numbers above.
